Continua inoltre la nostra grande attenzione ai Social Media. Le "Official Pages" Italeri su Facebook, Instagram e Twitter, cresciute in modo significativo per numero di followers, sono un'importante fonte di comunicazione e di condivisione informativa su nuovi prodotti, eventi, e utili notizie storico-modellistiche. Ma soprattutto sono un contenitore online da dedicare ai nostri Amici Modellisti, in tutto il Mondo, e ai loro fantastici modelli realizzati con i nostri kit in scala. Questa è la missione di Italeri: diffondere sempre di più la cultura del modellismo e la passione per il nostro fantastico hobby.

Our presence on social media will continue to grow and be further improved. The Italeri "Official Pages" on Facebook, Instagram and Twitter, which have grown significantly in terms of numbers of followers, are important communication and information sources on which to share new products, events and useful historical and modelling news. But above all they are unique online platforms dedicated to our modelling supporters and communities from all over the world, and not least to their outstanding models reproduced through our detailed modelling kits. It is Italeri's mission to continue to spread the knowledge, interest and cultural heritage of scale modelling together with our enduring passion for this wonderful hobby.

La via Italiana al modellismo

Benvenuti nel 2025, tra nuove sfide e novità importanti per l'azienda e per il mondo del modellismo. Purtroppo il 2024 si è concluso con la dolorosa scomparsa di Gian Pietro Parmeggiani, padre fondatore nel 1962 a Bologna dell'Italeri insieme a Giuliano Malservisi, venuto a mancare alla fine del 2023.

Questi eventi dolorosi ci riportano alla nostra storia e alle origini di questa infinita passione per il modellismo, spingendoci con ancora più forza e impegno verso il futuro.

L'azienda, che rimane saldamente nelle mani delle famiglie dei fondatori, mantiene progettazione e produzione in Italia. Questo garantisce il controllo diretto sulla qualità dei prodotti e sulla scelte dei soggetti, facendo dell'Italeri un punto di riferimento internazionale del modellismo "Made in Italy".

The italian way to scale modelling

Welcome to 2025, a year of new challenges and significant developments for the company and the world of modeling. Unfortunately, 2024 ended with the painful loss of Gian Pietro Parmeggiani, co-founder of Italeri in 1962 in Bologna alongside Giuliano Malservisi, who passed away at the end of 2023.

These painful events remind us of our history and the origins of our enduring passion for modeling, driving us forward with even greater determination and commitment toward the future.

The company, which remains firmly in the hands of the founders' families, continues to design and produce in Italy. This ensures direct control over product quality and subject choices, making Italeri and its "Made in Italy" an international benchmark for scale modelling field.

La storia dell'Aeronautica Militare attraverso i modelli Italeri

Italeri è da anni licenziatario ufficiale di Aeronautica Militare. Attraverso una collaborazione costante e continua con il prestigioso Partner, Italeri offre una vasta linea di aerei che ripercorrono la storia dell'Aeronautica Militare Italiana. Dai biplani degli anni '30 della Regia Aeronautica, passando per i primi jet degli anni '60, per arrivare ai moderni caccia di quinta generazione, la passione per la ricerca storica e la cura del particolare viene valorizzata attraverso una gamma di modelli in scala apprezzata a livello internazionale.

The history of Aeronautica Militare through Italeri models

Italeri has been an official licensee of Aeronautica Militare (Italian Air Force) for many years. Through a constant and ongoing collaboration with this prestigious partner, Italeri offers an extensive line of aircraft models that trace the history of the Italian Air Force. From the biplanes of the 1930s Regia Aeronautica to the first jets of the 1960s, and up to the modern fifth-generation fighters, Italeri highlights its passion for historical research and attention to detail through a range of scale model kit appreciated internationally.

4714 Lancia Stratos HF Gr.4 1:12

Nata per vincere

Costruita appositamente per diventare la regina dei rally, con il suo design avveniristico e tre titoli Mondiali Costruttori vinti dal 1974 al 1976 la Lancia Stratos è una protagonista assoluta nella storia dell'automobilismo. Una nuova star nella Collezione in 1:12 Italeri, una scala che ne esalta le linee costruttive, l'aerodinamica e i dettagli del motore.

Born to win

Built specifically to become the queen of rallies, with its futuristic design and three World Constructors' titles won from 1974 to 1976, the Lancia Stratos is an absolute protagonist in the history of motorsport. A new star in the 1:12 scale Italeri Collection, a scale that highlights its construction lines, aerodynamics, and engine details.

4716 Bugatti Type 35B - Targa Florio '29/Monaco GP '30 1:12

La Bugatti Type 35 è tra le più iconiche e significative vetture della Storia dell'automobilismo sportivo. Capolavoro di Ettore Bugatti è un eccellente mix di competenze ingegneristiche, design, eleganza, leggerezza e velocità. Prodotta durante gli anni '20 conquistò nelle competizioni su strada e su pista un numero incredibile di vittorie. Venne infatti specificatamente progettata per il mondo delle competizioni con l'introduzione di soluzioni tecniche e meccaniche che la rendevano ideale per i circuiti dell'epoca. Tra le vittorie del suo "Palmares" la Targa Florio del '29 e il Gran Premio di Monaco del 1930.

The Bugatti Type 35 is one of the most iconic car in the history of motorsport. A masterpiece by Ettore Bugatti, it represents an outstanding blend of engineering expertise, design, elegance, lightness, and speed. Manufactured during the 1920s, it achieved an extraordinary number of victories in both road and track competitions. Specifically designed for the racing world, it introduced technical and mechanical innovations that made it perfectly suited for the circuits of its era. Among its notable achievements there are the victory at the 1929 Targa Florio and the 1930 Monaco Grand Prix.

Dall'Italia con furore

L'elegante coupé sportivo del celebre marchio italiano Lancia riscosse un ottimo successo commerciale nella seconda metà degli anni '60. La linea accattivante, le prestazioni ed un buon rapporto qualità-prezzo furono i principali fattori di successo. Dalla versione stradale venne derivata la mitica Lancia Fulvia HF che divenne una vera e propria icona delle competizioni "off-road" dove ottenne importanti successi nel Rally di tutto il mondo che culminarono con la conquista del Campionato Internazionale costruttori nel 1972.

From Italy with fury

The elegant sports coupé from the famous Italian brand Lancia achieved remarkable commercial success in the second half of the 1960s. Its captivating design, performance capabilities, and good "value-for-money" were the key factors driving its popularity. The commercial version served as the basis for the legendary Lancia Fulvia HF, which became an iconic car in off-road competitions. This model achieved significant victories in rallies across the globe, culminating in the triumph of the International Constructors' Championship in 1972.

**3967****Volvo FH Low Roof 1:24**

Il Volvo FH ha stabilito il raggiungimento di un elevato livello di progettazione e tecnologia costruttiva del celebre "brand" di veicoli commerciali ed industriali. Il suo design accattivante è stato realizzato per ottimizzare l'aerodinamica e ridurre al minimo i consumi in modo da garantire i più elevati standard di efficienza operativa. Il veicolo è inoltre equipaggiato con i moderni sistemi per l'assistenza di guida e la prevenzione dei rischi.

**NEW
PARTS****NEW 2025**

The Volvo FH represents a high benchmark in design and construction technology for the renowned commercial and industrial vehicle brand. Its appealing design has been developed to optimize aerodynamics and minimize fuel consumption, ensuring the highest standards of operational efficiency. Furthermore, the vehicle is equipped with advanced driver-assistance systems and risk prevention technologies.

Continua evoluzione

Con modelli sempre più aggiornati da parte della concorrenza, anche IVECO presenta la sua nuova generazione di camion nel 2019. Il S-WAY è una nuova motrice pesante per rimpiazzare il "vecchio" Stralis. La cabina del S-WAY è stata completamente rivista rispetto al suo progenitore. Internamente è aumentata l'ergonomia e lo spazio per il conducente; esternamente sono stati migliorati i flussi aerodinamici e i consumi. La stessa attenzione è stata posta proprio alla cabina, in questo nuovo modello in scala 1:24.

Constant evolution

With increasingly updated models from the competition, IVECO also unveils its new generation of trucks in 2019. The S-WAY is a new heavy-duty tractor unit designed to replace the "old" Stralis. The S-WAY cabin has been completely redesigned compared to its predecessor. Internally, ergonomics and space for the driver have increased; externally, aerodynamic flows and fuel efficiency have been improved. The same attention to detail has been applied to the cabin, in this new 1:24 scale model.

Un monoplano per l'aeronautica

100% NEW MOULDS

A monoplane for the Regia Aeronautica

Nonostante le resistenze da parte dei piloti, dopo la guerra civile spagnola la Regia Aeronautica sa di avere bisogno di aerei più veloci: serve un monoplano. Castoldi, lo stesso progettista di idrocorsa vincenti nella Coppa Schneider, risponde alle richieste con questo modello. Un caccia capace di tenere testa a quasi tutti i suoi avversari dell'epoca.

A seguito dei riscontri positivi di tanti modellisti, anche questo caccia in scala 1:32 verrà offerto con le decal 3D.

Despite resistance from the pilots, after the Spanish Civil War, the Regia Aeronautica realizes the need for faster aircraft: a monoplane is required. Castoldi, the same designer of winning seaplanes in the Schneider Cup, responds to the demands with this model. A fighter plane capable of holding its own against almost all of its contemporaries.

Following the positive feedback from many modelers, this 1:32 scale fighter will also be offered with 3D decals.

F-35A Lightning II (Beast Mode) 1:48

Il programma JSF Joint Strike Fighter venne impostato per sviluppare un nuovo caccia multi ruolo "all-weather" di quinta generazione in grado di costituire un valido sostituto agli aerei d'attacco al suolo degli Stati Uniti e dei Paesi NATO. Dal progetto nacque il velivolo monoposto Lockheed Martin F-35 Lightning II. Dotato di una straordinaria tecnologia è caratterizzato dall'adozione di un lay out aerodinamico, con caratteristiche stealth, ad ala trapezoidale. L'estrema flessibilità operativa, il carico offensivo che è in grado di trasportare, la tecnologia di bordo e la forte innovazione del progetto, hanno sostenuto la diffusione, attuale e prospettica, dell'F-35 A tra i reparti di volo di numerose forze aeree.

The JSF (Joint Strike Fighter) program was established to develop a new fifth-generation all-weather multirole combat aircraft able to replace the United States and NATO strike-fighters. The aerospace industry team led by Lockheed Martin created the single-seat, single-engine, F-35 Lightning II. It utilises stealth technology and is characterized by its trapezoidal wings plus the incorporation of the most advanced hi-tech materials and avionics systems. Due to its operational flexibility, the advanced on-board technology and the impressive project innovation, the fighter has been favourably received and deployed by many countries' air forces.

2840 MC 202 Folgore 1:48

Il Macchi MC 202 Folgore ha costituito una decisa innovazione per i reparti da caccia della Regia Aeronautica. Straordinariamente bello da un punto di

100%
NEW
MOULDS

vista aerodinamico, era equipaggiato con i potenti motori in linea tedeschi DB 601 prodotti su licenza dall'industria aeronautica italiana. Le nuove motoriz-

zazioni e la solidità del progetto aeronautico dotarono la Regia Aeronautica di un caccia in grado di combattere "alla pari" con i caccia alleati.

The introduction of the Macchi MC 202 Folgore was a significant development for the fighter squadrons of the Italian Regia Aeronautica. Stylishly designed from an aerodynamical perspective, it was fitted with the powerful German DB 601 engine produced under license by the Italian aeronautical industry. The engine and overall aeronautical performance of the aircraft provided the Regia Aeronautica with a fighter capable of actively engaging Allied fighters.

Durante la Seconda Guerra Mondiale, i piloti da caccia che avevano abbattuto numerosi aerei nemici venivano dichiarati "Assi". Solitamente, per la maggior parte delle aeronautiche, si veniva accreditati come "assi" dopo aver conseguito cinque abbattimenti confermati. Molti di questi piloti divennero delle vere e proprie leggende nel proprio Paese ed utilizzati dalla propaganda come sinonimo di coraggio, eccellenza aeronautica, leadership e senso del dovere. Alcuni di loro svilupparono nuove tecniche di combattimento ed altri contribuirono, con la loro esperienza, all'innovazione tecnologica dell'aviazione. La linea dedicata Italeri vuole celebrare il coraggio di questi celebri piloti ma anche sottolineare l'importanza di come il modellismo può valorizzare e raccontare la Storia.

During World War II, fighter pilots who had shot down numerous enemy aircraft were declared "Aces." Typically, in most airforces, a pilot would be credited as an "Ace" after achieving five confirmed kills. Many of these pilots became true legends in their own countries and were used by propaganda as symbols of courage, aeronautical excellence, leadership, and sense of duty. Some of them developed new combat techniques, while others contributed their experience to technological advancements in aviation. The Italeri dedicated line aims to celebrate the courage of these renowned pilots while also highlighting how modeling can preserve and narrate History.

6751 Semovente M43 da 105/25 "Bassotto" 1:35

Potenza formato tascabile

Per far fronte alla gara tra corazzate sempre più efficaci e armi capaci di penetrarle, nel 1943 Ansaldo presenta al Regio Esercito un cannone da 105mm montato sullo scafo del semovente M42. Più basso di 10 cm del suo progenitore nonostante il calibro aumentato, si guadagna il soprannome di "Bassotto". Anche il modellino in scala 1:35 segue le orme dell'originale, con nuovi interni, cannone e scafo.

Pocket sized firepower

To cope with the competition between increasingly effective armor and weapons capable of penetrating them, in 1943 Ansaldo presented to the Royal Army a 105mm cannon mounted on the chassis of the M42 self-propelled gun. Lower by 10 cm compared to its predecessor despite the increased caliber, it earns the nickname 'Bassotto' (Dachshund). The 1:35 scale model also follows the footsteps of the original, featuring new interiors, cannon, and chassis.

6759 Semovente M42 upgrade edition 1:35

Il Regio Esercito, durante la Seconda Guerra Mondiale, manifestò il bisogno di disporre di unità di artiglieria meccanizzata in grado di affiancare i reparti di fanteria e i reparti corazzati. Il semovente 75/18 si dimostrò valido e temuto dagli avversari. Nel corso della guerra venne tuttavia potenziato con aumentata capacità offensiva. Sullo scafo del carro semovente M42 venne quindi installato il più potente cannone 75/34 progettato per il tiro controcarrato.

The Italian "Regio Esercito", during World War II, identified the need for mechanized artillery units capable of supporting both infantry and armoured divisions. The 75/18 self-propelled gun proved to be effective and feared by adversaries. However, as the war progressed, it was upgraded to enhance its offensive capabilities. The more powerful 75/34 anti-tank gun was mounted on the chassis of the M42 self-propelled vehicle, specifically designed for anti-tank engagements.

NEW 2025

**NEW
PARTS**

La linea più vasta e completa dedicata ai veicoli militari Italiani della Seconda Guerra Mondiale

Il grande successo riscosso dalle più recenti produzioni ha confermato l'interesse dei modellisti di tutto il mondo per i nostri kit con una particolare attenzione per i mezzi corazzati e blindati utilizzati in Nord Africa e durante la campagna d'Italia. Veicoli militari che non possono mancare in una collezione di mezzi corazzati spesso ideali per realizzare interessanti diorami. Dalla celebre autoblinda AB41, al carro pesante P40 sino all'atteso Semovente M43 Bassotto, la linea Italeri ripercorre un pezzo importante della Storia Militare della Seconda Guerra Mondiale.

The most extensive and comprehensive line dedicated to Italian military vehicles from World War II

The great success of recent releases has confirmed the interest of modelers worldwide in our kits, with particular attention to the armored and tank vehicles used in North Africa and during the Italian Campaign. These original military vehicles are essential for any collection of armored vehicles and are often ideal for creating engaging dioramas. From the famous AB41 armored car to the P40 heavy tank and the much-anticipated Semovente M43 Bassotto, the Italeri line revisits an important chapter of World War II military history with a high level of attention and detail.

Military vehicles 1:56

**Benvenuti nella
terza dimensione
del modellismo!**

**Grande dettaglio
in dimensioni contenute**

I modelli della linea di veicoli militari in scala 1:56 Italeri possiedono due grandissimi pregi: un livello di dettaglio elevato come solo le scale "maggiori" possono offrire e dimensioni contenute.

Grazie a queste caratteristiche il modellista potrà realizzare una collezione completa di veicoli militari senza la necessità di avere spazi importanti per esporre i suoi modelli. Inoltre la ricca linea di mezzi militari della Seconda Guerra Mondiale comprende i carri armati più celebri utilizzati dalle forze armate Alleate e dell'Asse.

**Welcome to
the third dimension
of modelling!**

**Great detail
in a compact size**

The 1:56 scale Italeri military vehicle line has been developed around a significant strength: a high level of detail in the models that only larger scales can offer, but in a compact size.

This is a crucial factor for model enthusiasts who can create a complete collection of military vehicles without the need for significant display space. The line of World War II military vehicles includes the most renowned tanks used by both Allied and Axis forces.

M.A.S. 2a serie 1:35

La Regia Marina Italiana, sin dalla Prima Guerra Mondiale, ha prestato una grande attenzione allo sviluppo di piccole e rapide imbarcazioni armate generalmente di siluri. I motoscafi armati siluranti, più conosciuti con la sigla MAS, erano imbarcazioni di diretta derivazione civile. Nel corso della Prima Guerra Mondiale i risultati ottenuti sono stati assolutamente significativi. Nonostante fossero adatti a mari chiusi e poco mossi come l'Adriatico, la Marina Italiana continuò a lavorare per migliorarne le prestazioni attraverso unità dedicate di sviluppo. Un'ulteriore spinta al loro utilizzo si ebbe durante la Seconda Guerra Mondiale dove i MAS, di nuova concezione ed equipaggiati con motori più affidabili e potenti, vennero impiegati sia come siluranti sia come piattaforme antisommersibile.

NEW 2025

**NEW
PARTS**

The Italian Regia Marina, since World War I, devoted significant attention to the development of small, fast vessels typically armed with torpedoes. These motor torpedo boats, better known by their acronym MAS (Motoscafi Armati Siluranti), were directly derived from civilian designs. During World War I, the results achieved by these boats were remarkably significant. Although they were particularly suited for enclosed and relatively calm waters like the Adriatic Sea, the Italian Navy continued efforts to improve their performance through dedicated development units. Their use saw a further boost during World War II, when the MAS, redesigned and equipped with more reliable and powerful engines, were employed both as torpedo boats and as anti-submarine platforms.

COMPLETE SET FOR MODELING

The complete set to start your new passion!

Everything you need to make the first model kit and the future ones

Il set completo per iniziare la tua nuova passione!

Tutto quello che ti occorre per il tuo primo kit e per quelli a seguire

- 1) One plastic model kit with decals
- 2) Glue for plastic (liquid cement 5ml)
- 3) Main acrylic paints (3x7ml)
- 4) Brush
- 5) Precision tweezer
- 6) Doublesided sandpaper
- 7) Sprue cutter
